petromar

INTRODUCTION

Petromar is guided by the core philosophy of 'performance beyond limits'. We have always endeavored to ensure that excellence and consistency permeate each and every facet of our business activity. Being well diversified, every company in the fold mirrors this thought.

Our customers are key to the blazing growth that we have achieved. They motivate us to reach higher. Their needs require our constant and undivided attention, and all of our efforts are geared toward achieving them.

At Petromar, our energies are focused on the creation of highly customized, client-oriented service solutions in every field that we have a presence in. A new standard of product quality is rooted in our meticulous attention to detail, be it in hydrocarbons, minerals, manufacturing or in the hospitality industry. This results in the overall success of projects and enables us to meet our clients' requirements.

GROUP BUSINESS PHILOSOPHY

“A LOT OF PLAYERS EXIST IN THE MARKET, SOME ARE NEW AND OTHERS ARE WELL KNOWN BUT WE TAKE ON CHALLENGES, ACHIEVE SUCCESS AND HELP YOUR BUSINESS GROW.”

CEO'S MESSAGE

At Petromar our prime focus is to deliver solutions that make a change. We adopt a process where innovation and creativity go hand in hand to achieve results. The Petromar team works in cohesion with internationally recognized norms in order to meet quality standards as per our global reach.

Since inception, our time-honored philosophy has been to provide “quality & innovative products & services that enhance the wealth of the stakeholders”. To us our customers matter the most, and whose satisfaction we consider key to any successful business.

With an effective and creative management team, Petromar continues on its voyage to bring positive change, sustainable growth and development to our Organization as well as to society.

Salim Shaikh
Chief Executive Officer

GLOBAL PRESENCE

A broad global presence is critical to our success and enables us to better understand and address the challenges that our customers face. Continuing our globalization efforts has been a key pillar of our growth initiative for the past ten years.

UAE. OMAN. INDIA. MALAYSIA. INDONESIA. SOUTH KOREA. VIETNAM. SWITZERLAND. USA.

VISION

To take on challenges, provide sincere and transparent professional services, achieve success and help your business grow.

MISSION

To provide our clients with innovative technologies, equipment and services in an effective and efficient manner.

INDUSTRIES WE SERVE

ENERGY 15

- Project Development
- Project Financing
- Vendor Development
- Strategic Alliance Development
- Sale & Service of Engineered Equipment
- Sale of Speciality Chemicals
- Fabrication of Pipe Support Systems
- Mechanical Erection
- Mechanical / Electrical / Instrumentation
- Manufacturers of Process Equipment, Skids & Systems

PROCESS AUTOMATION & TELECOMMUNICATION 33

- Automation & Telecommunications System Integrator

INFRASTRUCTURE 35

- Production of HDPE Pipes & Pre-insulated Pipes

MINING 37

- Own & Operate Mining Concessions
- Trade in Minerals

RENEWABLE ENERGY 39

- Renewable Energy Systems
- Patented Solar Glass Technology
- Composite Renewable Energy Solutions

HOSPITALITY 41

- Own & Manage Hotel Properties

PETROMAR FZC

Petromar was established in the year 2005 and provides first hand knowledge of projects in the energy sector from the conceptual stage to EPC Award.

Petromar further enhances this strength by the supply of equipment and strategic alliance development with the sub contractors to the successful EPC Contractors.

Petromar also provides project financing through their association with International Partners.

Strategically, Petromar provides the following services:

- Project Development
- Vendor Development
- Project Financing
- Strategic Alliance Development

PETROMAR ENERGY SERVICES

Petromar Energy Services was established in United Arab Emirates in early 2007. Today the Firm has some of the most qualified and experienced professionals from the oil and gas industry guiding its growth and marking a soaring trajectory. The collective experience of these personnel spans over five decades.

With a firm local presence, unparalleled levels of knowledge and a track record in timely execution, PES offers its customers an invaluable access to privileged relationships with the industry's finest.

The firm has honed its skills handling numerous challenges.

Our skills are utilized to the hilt with competence in:

- Vendor Development
- Contract Negotiation
- Procurement Activities
- Alliance Development
- Representation of International Companies for Sale & Service of Engineered Equipment
- Sale of Speciality Chemicals

Petromar Chemicals is a leading provider of high-performance specialty chemical products and services for the Oil & Gas and the Water Treatment Industry. As a division in Petromar Energy Services, we commit to design our products based on our customer's needs and conditions, with an extensive experience in Production and Specialty Chemicals within the region.

We assist E&P companies in providing accurate solutions to improve production sustainability, operational and economic efficiency. Whatever the challenge, our full-service lab can design customized proactive and reactive chemicals and provide you with the guidance needed along every step of the application process. The firm has honed its skills handling numerous challenges. Our skills are utilized to the hilt with competence in:

- Chemical repackaging
- Oil & Gas Chemical Testing & Analysis
- Oilfield Production Chemicals
- Oilfield Drilling Fluids
- Water Treatment Chemicals
- Boiler & RO Chemicals Tests Kits
- Chemical Injection Skids and Dosing Pumps
- Fluid Management & Packing
- Supply of Adsorbents & Catalysts
- Decontamination Services
- Removal of Heat Stable Salts from Amine Solvents
- Catalyst Sulphiding Services (In-situ)
- Buying of Spent catalyst containing metals

PENTA GLOBAL ENGINEERING CONSTRUCTION COMPANY LLC

Penta Global is an established Mechanical Electrical & Instrumentation (MEI) Construction Contractor executing Projects for the Oil & Gas, Petrochemical, Fertilizer and Power Sectors across the Middle East, South East Asia and India. Approved by NOC's and IOC's and actively engaged on Projects with Internationally reputed EPC Contractors within our geographical footprint.

Penta has the ability and resources to undertake the following works and services:

- Structural – fabrication & erection
- Tank Fabrication
- Piping – fabrication & erection
- Equipment Erection – rotary & static installation
- Electrical and Instrumentation installation
- Pre-commissioning assistance

PENTA GLOBAL ENGINEERING COMPANY LLC

Penta Global's fabrication facility is located in ICAD-III, Mussafah and is one the most technologically advanced in the Region;

- 86,000 Square Meter Plot
- Fully Equipped State of the art facility
- 8,442 Square Meter Built up area consisting of 3 Fabrication Shops, 2 NDE Bunkers & 2 Paint Shops (Equipped with Auto blast machine)
- Installed capacity to produce approx. 70,000 Inch Dia of pipe spools and approx. 250 Tons of associated structural supports per month

Future expansion plans to fabricate Chemical Injection Skids, Instrument Control Panels, Process Filtration and Separation Equipment. ASME Pressure vessel and Boiler certifications are under process and expected by Q1 2019.

FACTORY PRODUCTION CAPACITY

Pipe spools - 70,000 Inch dia. per month

Pipe supports - 550 Tons per month

SECTORS

Oil & Gas and Petrochemicals

Fertilizer

Power generation

CERTIFICATIONS

Penta Global Engineering Company is an ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007 accredited, ensuring it confirms to international safety and quality standards and thus resulting in the quality you can depend on in a safe manner.

PROBUS ENGINEERING & CONSTRUCTION (PEC)

Probus Engineering and Construction Pte Ltd (PEC), is a Company incorporated in Singapore with its Operational Headquarters in Abu Dhabi. PEC is focused on the Oil & Gas, Infrastructure and energy markets. PEC is a fully ISO certified (9001:2015 and 14001:2015) Company with prequalification's across all Abu Dhabi Operating Companies and with a track record of delivery in both Abu Dhabi and Iraq. Leadership team all from Tier 1 EPC contractors with experience of USD multi-billion LSTK projects.

Engineering: Basic design and detailed engineering, are delivered through our Abu Dhabi Branch.

Procurement: Probus delivers global procurement via ISO9001:2015 approved processes and procedures.

Construction: Probus executes multi-discipline construction, through commissioning and start-up, as well as maintenance services.

Brownfield & Maintenance Services: Brownfield servicing and upgrade to support production growth.

Projects:

- Gas Compressor Stations
- Power Plants
- Pumping Stations
- Rehabilitation and Demolition
- Gas Drying / Processing
- Produced Water Treatment

DONG YANG CORROSION ENGINEERING CO. L.L.C.

Dong Yang Corrosion Engineering Co. L.L.C. is a UAE branch of Dong Yang Corrosion Engineering Co., Ltd. in South Korea which has accomplished numerous projects worldwide since 1970 and has been acknowledged as an experienced corrosion engineering company.

DYCE is staffed with experienced managers, the best corrosion engineers and technicians, and its labor force is dedicated and well trained in this fields.

With these facts, you can be assured that DYCE is one of the most reliable companies in the world and that we are in a good position to meet your requirements in our areas of specialism.

PETROMAR ENERGY SERVICES EGYPT LLC

Fulfilling the growing needs of a promising market such as the Egyptian market, established since 2020. Serving across various fields, starting from Oil & Gas, Fertilizers, Petrochemical, Refineries, alongside with Heavy Industries and country Mega Projects.

Specialized in the fields of:

Mechanical Supplies - Valves, Pumps, Compressors, Fittings, Pipes and Steel Bars. (Carbon Steel, Stainless Steel, Alloy Steel)

Chemical Treatment - Water Treatment (Reverse Osmosis), Waste Water Treatment, Production Chemicals, Specialty Chemicals, Amine Reclamation Services (Permanent & Temporary), Chemical Injection Skids and Filters.

Corrosion Monitoring and Cathodic Protection

Subsea Pipeline Integrity Assessment

OMAN

PETROMAR ENERGY SERVICES LLC

Catering to the growing market of Sultanate of Oman in the oil, gas, petrochemical, power and water industries, Petromar Energy Services LLC (PES) was established in 2012 by qualified and highly experienced professionals from all over the Gulf and brings with it over 50 years of combined experience in the energy sector.

The main focus of our operations is:

- Vendor Development

- Contract Negotiation
- Procurement Activities
- Alliance Development
- Representation of International Companies for Sale & Service of Engineered Equipment
- Sale of Speciality Chemicals

INDONESIA

PT PETROMAR ENERGI SERVIS

Catering to the growing market of Indonesia in the oil, gas, petrochemical, power and water industries, PT Petromar Energi Servis (PES) was established in 2016 by qualified and highly experienced professionals and brings with it over 50 years of combined experience in the energy sector. The Main focus of our operations is:

- Project Development
- Vendor Development
- Strategic Alliance Development
- Project Financing
- Petromar Energy Services UAE skills

INDONESIA

PT. PENTA GLOBAL KONTRAKTOR

Petromar and Penta Global have continued to expand across Asia into Indonesia after achieving notable success in the Middle Eastern, Indian and Malaysian markets. The new company is aiming to emulate the same high standards and quality of Mechanical Contracting Services provided to our existing client base, to major EPC Companies and Project Owners in Indonesia.

Our area of expertise covers total Mechanical Construction, from pre-fabrication to site erection for Major Oil & Gas, Petrochemical, Fertiliser, Power and Utilities projects.

INDIA

PENTA CONTRACTORS PVT. LTD.

After successfully establishing the UAE operations Petromar and Penta Global, in 2013, started up similar activities in India. The Company was formed in Gujarat and has been supporting Reliance Industries on several key infrastructure and oil & gas projects. Most notably, Penta has provided mechanical construction services which

covers prefabrication and erection of piping, structural and equipment (including large modules) on the Jamnagar Refinery Expansion Project Phase III. We have ambitious plans to grow in this market with large scale mega projects on the horizon all over India.

CERTIFICATIONS

- Certificate of Authorization ASME "U"
- ISO 9001:2015
- CRISIL RATED
- Environmental Management Systems ISO 14001:2004
- Occupational Health & Safety Management Systems BS OHSAS 18001:2007

PETROMAR ENGINEERED SOLUTIONS PVT. LTD.

Petromar Engineered Solutions Pvt. Ltd. provides complete filtration & separation solutions to the Oil & Gas, Petrochemicals, Steel, Fertilizer, Power & Water and Aviation Industries. The company's head office in Mumbai and branch offices in New Delhi & Hyderabad.

With a 12000 sq mtr state of the art fabrication facility located in Murbad, Maharashtra (100 Kms from Mumbai) PES has a

technical licensing agreement with PECO FACET (USA) and Faudi Aviation (GmbH Germany).

The Company in the last 20 years has successfully engineered and executed projects for diverse applications spread all over India. The Company has also exported products to Africa, China, Thailand, Middle East and United Kingdom. PES has supplied both stand-alone products as well as skid-based systems complete with piping, valves, instrumentation, control panels etc.

TRIMEX TRADING & SERVICES PVT. LTD.

Trimex Trading & Services Pvt Ltd was established in 1995 and represents reputed overseas companies in providing a responsive marketing base. The company represents international companies for sale and service of engineered equipment.

PGE CONSTRUCTION SDN. BHD.

Petromar and Penta Global expanded their relationship into Malaysia in 2014 after achieving notable success in the Middle Eastern, CIS and Indian markets. The new company executed Mechanical erection works within the cold end process area of the prestigious Petronas LNG Train 9 Project for Japan Gas Corporation (JGC). The Project was a huge success and PGE Construction was awarded the Contractor of the Year award for 2016 by JGC in recognition of outstanding performance. The

company aims to maintain the benchmark of delivering the highest standards in safety and quality to the existing client base, major EPC Companies and Project Owners. Our area of expertise covers total Mechanical Construction, from pre-fabrication to site erection for Major Oil & Gas, Petrochemical, Fertiliser, Power and Utilities projects.

TECWEL (MALAYSIA) SDN. BHD.

Catering to the growing market of Malaysia in the oil, gas, petrochemical, power and water industries, Tecwel (Malaysia) Sdn Bhd was established in 2005 by qualified and highly experienced professionals and brings with it over 50 years of combined experience in the energy sector.

The Main focus of our operations is:

- Project Development

- Vendor Development
- Representation of International Companies
- Sale & Service of Engineered Equipment
- Contract Negotiation
- Procurement Services
- Strategic Alliance Development
- Assets Integrity Management Services

AVER SOLUTIONS FZE

AVER SOLUTIONS & TELECOM SERVICES LLC

Aver Solutions, brings years of industry experience from the Middle East, CIS and South East Asia to your doorstep.

Following our three step motto (namely Conceptualizing, Consulting, Contracting), we specialize in Business Consulting, Electrical, Instrumentation & Control and Extra Low Voltage (ELV)/ Telecommunication Solutions. We offer our customers, a single source, vendor-neutral expertise in most technologies that encompass these disciplines, and provide solutions in oil & gas, water & sewerage, power & infrastructure verticals whilst striving to aim for providing our clients with products and services which fully conform to their requirements and expectations.

PETROMAR PIPING SYSTEMS LLC

Petromar Piping Systems LLC (PPS) is set up on a 50,070-square meter plot in the industrial city of Sohar, Sultanate of Oman.

PPS, has state of the art Manufacturing Facility with comprehensive in-house testing and Accreditations ISO 9001 – 2008, ISO 4427, 4437 EN 253 and WRAS

PPS Product range include but not limited to

- HDPE Pressure pipes from 16 mm to 630mm dia, SDR 11 & SDR 17 wall thicknesses & other thicknesses on request.
- Coiled Tubing/Ducting. Range: 16 mm - 110 mm dia.
- HDPE Casing pipes for pre-insulated Pipes and Fittings. Range: 90mm to 1800mm dia.
- Pre-insulated Pipes Coolpipe™ and Fittings for District Cooling Projects and similar uses. Range: 15mm to 1600mm dia. Capacity 450 kms p.a.
- Rigid PU/PIR Injected Insulation Boards. Range: 25mm to 100mm thicknesses.
- Pipe insulation with Paper Tube outer casing Cladinclud™. Range: 25 mm to 630 mm dia.

INDONESIA

PT INT'L MINERAL DEVELOPMENT

PT International Mineral Development is a new Company established in Indonesia, operating in iron sand mining and chrome mining. The scope of activities includes processing for mining and exports of minerals. The Company operates the concessions of iron sand with the beneficiation plans for upgradation with the capacity of around 30,000 tons/ month.

The company also owns concession of chrome mines under the name of Shantung Minerals about 2,000 hectares with deposit of nearly 50 million tones.

The future plan of PT International Minerals Development is to establish coal trading and setting up a smelter for producing steel and acquiring more coal and manganese concessions.

INDONESIA

PT SHANTUNG MINERAL RESOURCES

PT Shantung Mineral Resources is a mining company based in Indonesia. The company holds 3 mining concessions comprising of 2 Chrome Ore and 1 concession of Iron Sand. The mining location is in North Kabaena Island situated in the Southeast Sulawesi Province.

UAE

TERRA PETROMAR DMCC

The burgeoning global economy is seeing an increasing demand for minerals. Terra Petromar was formed to sell minerals excavated from Indonesia and other countries.

SWITZERLAND

SWISSINSO

SwissInso SA is a pioneer in the development and application of new solar technologies and products targeted at enhancing the aesthetics and overall efficiency of Building Integrated Photovoltaic (BIPV). Following seven intensive years of applied research worth €10 million investment and in partnership with the EPFL (Swiss Polytechnic Institute), SwissInso developed a unique patented nano-deposition technology for the colour coating of solar glass – Kromatix™. With Kromatix™ technology, beautifully finished, coloured glass can be applied on both solar panels and solar thermal collectors, allowing – for the very first time – solar solutions to be completely integrated into the architectural design of all types of building.

Kromatix™ coloured glass applied to solar panels generate the same amount of energy as conventional panels with negligible loss of efficiency and they can be mounted on all surfaces of a building, opening new opportunities in terms of architectural design and energy savings. With greater surfaces available for solar panel integration, building efficiency ratios and cost parameters are dramatically improved. Kromatix™ was used in the largest solar façade to date to realize the stunning Copenhagen International School project, completed in 2017 as seen in the accompanying picture. More than 12,000 pieces of Kromatix™ custom-sized panels were employed in this

UAE

EMIRATES INSOLAIRE

Emirates Insolaire, established in November 2013, is a joint venture of Dubai Investments PJSC – the leading investments company listed on Dubai Financial Market, and SwissINSO Inc, a company pioneering in the development and application of new solar technologies.

project and it powers more than 50% of the energy needs of the building.

SwissInso is committed to advancing research and development in the realm of BIPV. The future holds exciting possibilities for the development of thin glass, films and polymers in BIPV. Enhancements in this field in tandem with the steady development of solar cell technologies bodes well for the growth of solar architecture.
